

SWISS NAVY® Water

Water Base Lubricant

Q. Is it safe to use with condoms, toys and are they edible?

A. Both the silicone and water based lubricants are condom compatible. The water based can be used with any type of toy. The silicone lubricant is compatible with toys that are safe with silicone. It is always best to test the compatibility with any silicone toy. Both lubricants are ingestible during oral intimate play.

Q. Are Swiss Navy® Lubricants safe to use if I have a medical condition?

A. We recommend that anyone with a medical questions or concerns consult their doctor before using any of our products. Normally, lubricants are safe as long as it is safe to have sexual activity.

Our **Swiss Navy®** Water Based lubrican has a viscosity unlike any other water based lubricant. **Swiss Navy®** WaterBased comes out like a gel and liquefies with friction so it stays where you put it.
