

Wand by We-Vibe™

What is it?

Wand by We-Vibe™ is an ultra-powerful cordless body massager — and the most powerful massager on the market.

Innovative design and engineering put this wand into a class of its own. Wand is completely waterproof, wireless and rechargeable, with integrated responsive technologies including seamless intensity control, Smart Silence™, touchscreen controls and long-distance connectivity.

Wand comes ready to play with two attachments so you can explore a range of sensations. The attachments, ergonomic design, flexible head and We-Connect™ app all make this the perfect fit for couples looking to add something new to their collection.

Who is it for?

The Wand customer is looking for power, fun and a great experience — ranging from deep relaxation to new heights of pleasure. Their attention is captured by Wand's innovative features and design, which take this wand from basic to best-in-class. This is the ultimate wand, perfect for solo or partnered play. We-Vibe's existing audience and approach mean couples will find features that make it especially great for them to use together.

How to demo

- Inform the customer that Wand by We-Vibe™ is the most powerful cordless massager on the market.
- Turn Wand by We-Vibe™ on and pass it to the customer so they can feel the powerful vibrations and try the Smart Silence™ function.
- Emphasize how Smart Silence™ senses when Wand is close to your skin — turning the vibrations on when you're ready to go and off as soon as you want to stop, without you having to fumble with any buttons. Wand turns on once the head is 2 mm or less away from contact with skin or when wearing clothes not thicker than 1 mm.
- Demonstrate how easy it is to hold and control Wand by We-Vibe™ because of the user-friendly one-touch intensity control that acts like a dimmer-switch, allowing seamless control of intensity so that you can find the exact sensation that feels good to you.
- Highlight the lightweight, ergonomic shape and demonstrate how comfortable it is to hold.
- Demonstrate the flexible head.

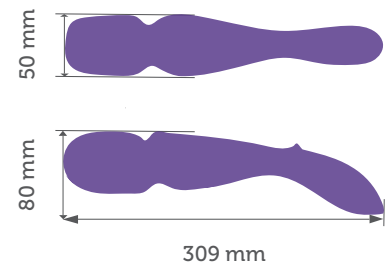

Features

- Most powerful cordless wand
- Smart Silence™
- Seamless intensity control
- Waterproof
- We-Connect™ App
- Flexible head
- Custom attachments
- Whisper quiet
- Low-power alert
- USB cord with magnetic charging pins
- Up to 120 minutes of play
- Rechargeable — 90 minutes
- Body-safe
- 10+ modes

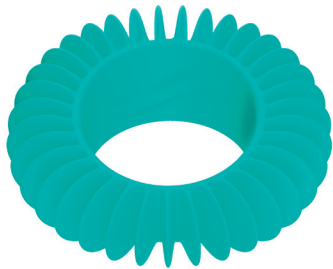

Materials: Body-safe, phthalate and BPA-free silky touch silicone

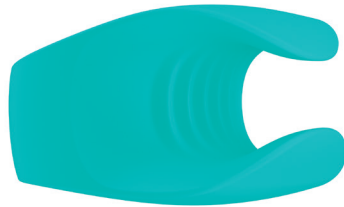

Dimensions:

Playful attachments

Fluttery

Stroke

- Demonstrate how Wand by We-Vibe™ is versatile and can be used as a regular vibrator or as a body massager.
- Demonstrate the ergonomic design by placing the massager over your shoulder on your back.
- Provide a demo of each attachment — showing that they can provide different sensations, giving more versatility. One is fluttery and focused and can provide intense stimulation to just the right spot. The other is great for stroking and can be used on different shapes and sizes because of its flexibility.
- Using the We-Connect™ app, demonstrate how Wand by We-Vibe™ can be controlled from across the room, or from across the world. Explain that with the app, you have access to a fluid range of intensity without steps between levels so that you can get the sensations you want with no interruptions. Show how the We-Connect™ app is also an innovative remote control and offers customization like creating your own vibe.
- Highlight We-Vibe® quality — body-safe, rechargeable, 2-year warranty.
- Explain that in order to preserve battery life, Wand by We-Vibe™ will enter sleep mode after 30 minutes of inactivity — including periods with no changes to your vibration patterns or intensity levels. Update this setting in We-Connect™ to keep Wand by We-Vibe™ on standby for up to 4 hours by going into Settings > We-Vibe Sleep Timeout.
- Note the magnetic charging contacts and the charging feature, and demonstrate how the charger securely fastens.
